

EDDLEMON CHILD DEVELOPMENT CENTER

Safety and Health Procedures

ECDC is taking extra precautions to help keep everyone safe and protected from exposure to germs and COVID-19. While the Coronavirus has forced us to review how we will do things. ECDC is asking all Parents to please comply with these rules and follow these preventive actions whenever you are on the premises of ECDC.

CHILDCARE:

Upon entering ECDC please stop at the restrooms by the gym to wash your hands and your child's hands. Thoroughly dry them as germs spread more rapidly with wet hands!

At this time **NO PARENTS** will be allowed to enter into these areas of the childcare center....

1. GYM AREA
2. CHILDCARE HALLWAY
3. CLASSROOMS

We are trying to keep a limited amount of traffic entering into the childcare area.

Hand sanitizer will be placed in the entrance area of the ECDC, to be used by each parent. You must use some **BEFORE** signing your children in or out on the tablets daily or making a payment.

A sign will be posted on all doors stating to **DO NOT ENTER** if you have any symptoms of illness. Or had close contact with someone who does, such as a member of your household.

PLEASE REMIND YOURSELVES, EACH OTHER AND VISITORS TO DO THESE THINGS. WE WANT TO KEEP EACH AND EVERYONE HERE AT ECDC HEALTHY AND HAPPY!!

For any concerns or questions please see the Director..

Thank you,
Director, Yolanda Staley
